

what is a spandrel?

Spandrels are unplanned-for spaces, forgotten architectural details, like the triangular space left beneath a stairwell, between an arch and the ceiling, under a bridge ...

spandrel

The term has been adopted by many professions to indicate the re-use of structures for purposes other than the originally intended - even body parts!

what is spandrelling?

Spandrelling means using these empty spaces, building structures for sleeping, eating, looking at stars...
